PROFILE

I am a dedicated software engineer with a passion for designing and building scalable, efficient, and innovative solutions. With a strong foundation in software development and expertise across multiple technologies, I transform complex problems into seamless, high-performing applications. Continuously staying ahead of industry advancements, I explore new tools and methodologies to ensure my work remains cutting-edge. My approach is rooted in collaboration and problem-solving, enabling me to create impactful software that enhances user experiences and drives business success.

PROFESSIONAL EXPERIENCE

IT Project Manager | 2024-2025

WeeWee Delivery

- Define project scope, goals, and deliverables in collaboration with stakeholders.
- Act as the primary point of contact for stakeholders, and team members.
- Assemble and lead project teams, assigning roles and responsibilities.
- Monitor risks throughout the project lifecycle and take corrective actions as needed.
- Build and maintain the server-side logic, databases, and APIs for web and mobile applications using Python and Django, ensuring security, scalability, and efficient data processing.

Mobile Application Developer (Flutter) | 2023-2024

WeeWee Delivery

- Develop and maintain the delivery app for customers and drivers.
- Ensure a smooth user experience across Android & iOS using Flutter.
- Ensure the app works smoothly under heavy traffic.
- Develop features for placing, tracking, managing orders.
- Integrate Geolocation and implement firebase push notifications.
- Publish updates on Google Play Store & Apple App Store.

Mobile Application Developer (Flutter) | 2022

Dymin

- Develop and maintain cross-platform applications using Flutter & Dart for the company.
- Convert Figma designs into Flutter widgets.
- Connect the app to the backend system for order processing.

Mobile Application Developer (Flutter) | 2022

Freelance

- During this period I worked as a freelancer with some Gulf clients, I maintained a hotel application by collaborating with a team of developers.
 - I also created an application from scratch to display and book the hairdressing services provided by the hotel to the guests
-

EDUCATION

Graduation Project | September 2021

- Investigation of a classifier for Sentiment Analysis based on Spiking Neural Network (SNN).

Master Artificial Intelligence | 2019 - 2021

- Postgraduate degree focusing on machine learning, deep learning, data science, and AI-driven solutions, preparing professionals to develop intelligent systems and innovate in various industries.

Bachelor's in computer science | 2016 - 2019

- Undergraduate degree that covers programming, algorithms, data structures, software development, and computer systems, preparing students for careers in software engineering, AI, cybersecurity, and more.

University of Jijel - Mohamed Seddik Ben Yahia, Jijel, Algeria.

CERTIFICATES

Crash Course on Python | 2022

Google

Introduction to Git and GitHub | 2022

Google

Configuration Management and the Cloud | 2022

Google

Google IT Automation with Python Professional Certificate | 2022

Google

Using Python to Interact with the Operating System | 2022

Google

Troubleshooting and Debugging Techniques | 2022

Google

Automating Real-World Tasks with Python | 2022

Google

TECHNICAL SKILLS

- Data Structures & Algorithms (DSA)
- Software Development Life Cycle (SDLC)
- SQL & NoSQL Database.
- SOLID & Design patterns
- Testing & Debugging.

SOFT SKILLS

- Problem-Solving & Analytical Thinking
 - Communication & Teamwork
 - Time Management & Adaptability
 - Creativity & Innovation
-

PROGRAMMING LANGUAGES

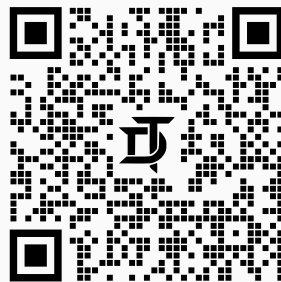

- Java (+5 years)
 - Python (+7 years)
 - Dart (+4 years)
 - JavaFx (2 years)
 - C/C++
 - javascript
 - HTML/ css/ xml
-

KEY SKILLS

- Flutter
 - Git & Github
 - ClickUp
 - Django
 - Firebase
 - Figma
-

PUBLISHED MOBILE APPLICATIONS

- Play Store: 3 APPs
- APP Store: 2 APPs
